

dimidium bromide

cas 37889-60-4

D0718NN **Gold Line****Typical analysis**

Assay	98 - 102%
Water (H ₂ O)	<5%
Fluorescent probe for Nucleic Acids and interchelating agents	

**Packaging**

1g black plastic jar

Physical properties, composition and data

Chemical formula	C ₂₀ H ₁₈ BrN ₃
Chemical group	Bromides
Synonym	3,8-Diamino-5-Methyl-6-phenylphenanthridinium bromide
Atomic weight	380.29
Appearance	Dark, purple crystals
Solubility	Miscible with water
Melting point	242°C
Density (g/ml)	380

Laboratory preparation, applications and practices

Usage Reagent for the titration of tensioactives

Storage and handling informationStorage/handling Store in a cool dry place
Risk phrases 20/21/22**Transport regulations**

Tariff code 2933.90.90
